Questions and Responses:

1. **Question:** Manufacturer Specifications: Does this project require the use of a specific paint manufacturer?

Response: Please see Attachment A Scope of Work / Specifications

2. **Question: Submission Method:** Should the bid be submitted via email, physical mail, or an online portal?

Response: See Page 1 of the Solicitation.

3. **Question: Bid Templates:** Are there specific templates or forms you would like us to use other the form already provided?

Response: See Section 6 Instructions to Bidders, 6.3 Bid Submittals.

4. **Question: Site Tour:** What dates and times are available for a site walkthrough?

Response: An optional Site Visit is scheduled for December 30, 2025, at 11:00 A.M. EST.

Site Visit location:

1851 Rippon Blvd,
Woodbridge, VA 22191

5. **Question:** What license is required for this Bid ?

Response: A valid Virginia Class A Contractor's License is required for this bid.

6. **Question:** Is a class c license required or just State corporate commission?

Response: A valid Virginia Class A Contractor's License and registration with the Virginia State Corporation Commission are required for this contract.

7. **Question:** Class A license is not required?

Response: See question # 6

8. **Question:** What is an example of an emergency situation that would require immediate attention in regards to painting services?

Response: An emergency requiring immediate painting services may occur when equipment or a tank is taken offline and corrosion control is needed promptly to minimize downtime.

9. **Question:** Does corrosion control include services outside of painting and surface preparation?

Response: Yes. Corrosion control can include services beyond painting and surface preparation. For example, during surface preparation, previously concealed damage may be exposed, such as areas that require patching or minor repairs to restore the integrity of the surface before protective coatings are applied.

10. **Question:** Do you provide climate controlled onsite storage for projects that require multiple days to complete?

Response: No, typically exterior surfaces requiring corrosion control are not located in climate-controlled environments; therefore, the contractor would be responsible for providing the necessary measures to maintain environmental conditions in accordance with the manufacturer's application recommendations.
