

NOTICE OF PROJECT OVERVIEW

Heritage Hunt Sewage Pumping Station (SPS) and Force Main (FM) Project

Notice Issue Date: 11/2/2021

Project Presentation Date: 11/9/2021

Project Presentation Time: 11:30 am – 12:30 pm

Service Authority: Prince William County Service Authority
Attention: Engineering & Planning, David Scott, dscott@pwcsa.org
Engineering & Planning, Shannon Morrow, smorrow@pwcsa.org

Address: 4 County Complex Court
Woodbridge, VA 22195

Project Name: Heritage Hunt Sewage Pumping Station (SPS), L52 Replacement, and Force Main (FM) Extension Project

The Prince William County Service Authority (Service Authority) intends to issue an Invitation for Bid (IFB) for the construction of the Heritage Hunt Sewage Pumping Station, L52 Replacement, and Force Main Project in the near future. In advance of the IFB, the Service Authority is hosting an information session to give a presentation of the project to prospective bidders. The presentation will be conducted via a Microsoft Teams teleconference on Tuesday, November 9, 2021 from 11:30 am – 12:30 pm.

Potential Bidders interested in attending the Project Overview may download the application and join the meeting via the MS Team application by audio, video, or both. If a Bidder plans to join the Project Overview, the Bidder must inform the Engineering Department at dscott@pwcsa.org and smorrow@pwcsa.org. Please provide the following information: vendor name, business address, and contact person. The Service Authority will provide the MS Team link to requestors only.

Summary of Project:

Heritage Hunt Sewage Pumping Station

- Performance of all work as described in the contract documents for the construction of a new 7.81 MGD wet well/dry-pit sewage pump station.
- Furnish, installation and startup of all pump station equipment, including but not limited to; sewage pumps, grinder systems, carbon odor control, bioxide odor control, mechanical systems and generator.
- Maintaining service of existing pump station throughout duration of construction.
- Demolition of existing pump station structure and appurtenances after the startup of the new sewage pump station.
- Site improvements, including but not limited to paving, grading, fencing and landscaping.
- Other sanitary sewer appurtenances of the Heritage Hunt Sewage Pumping Station.

Heritage Hunt Force Main

- Performance of all work as described in the contract documents for the construction of a new 24-inch and 16-inch class 52 ductile iron force main totaling approximately 8,300 linear feet.
- Site restoration and improvements, including but not limited to paving, grading, fencing and landscaping.
- Quality Level A utility designation.
- Maintenance of traffic (MOT) and work zone safety measures.
- Testing and Start-up of new Force Main System.
