

Requested Watering Schedule

ADDRESSES ENDING IN:

Odd Numbers*
Even Numbers*
All Businesses

IRRIGATE ON:

Sundays, Tuesdays, Fridays
Mondays, Thursdays, Saturdays
Tuesdays, Thursdays, Saturdays

* Customers may irrigate on Wednesdays as an alternate day.

To help ease the strain on the Prince William County Service Authority's water distribution system during this extremely hot summer, we encourage you to follow the lawn and landscaping irrigation schedule, above.

The Service Authority also urges you to:

- Water your lawn at a different time of day than your neighbors to help support sufficient water pressure in your neighborhood. Also, please use moderation when watering during the peak demand hours of 5:00 a.m. and 7:00 a.m. For guidance on programming your automatic irrigation system, please watch our tutorial video at bit.ly/irrigation-system.
- Follow the eco-friendly irrigation and landscaping tips in the *Water-Wise Landscaping & Watering Guide* available online at bit.ly/landscaping-guide.

Thank you for helping to optimize the efficiency of the water distribution system while being a friend to the environment.
